My Skills

As a junior front-end developer, I bring a versatile skill set to the table:

- Skilled in **HTML** and **CSS**, I craft clean and **responsive** web designs.
- Leveraging frameworks like **Bootstrap** and **Tailwind CSS**, I ensure efficient and consistent development.
- My expertise extends to **JavaScript**, **React**, and **Redux**, allowing me to build dynamic and interactive user interfaces with ease.
- With **Git** proficiency, I collaborate effectively and maintain organized codebases, contributing positively to team projects.

As a dedicated learner, I continuously enhance my skills to stay abreast of industry trends and deliver high-quality front-end solutions.

Education

2016   **Semnan (Garmsar) Azad university**

Bachelor of Electrical engineering

Achievement

I successfully completed several challenging web development projects, showcasing my proficiency in HTML, CSS, JavaScript, and other relevant technologies. These projects not only demonstrated my technical skills but also highlighted my ability to problem-solve and innovate in dynamic environments. you can find my portfolio here: **armaghan-m.liara.run**
